Il Cestino di Pane

The Bread Basket

[www.cestinodipane.it](http://www.cestinodipane.it)

Unica - Il Cestino di Pane, is an all-Italian brand that has given life to an idea, revolutionising the way it presents its specialities, all while showing a strong sensitivity towards increasingly topical issues such as pollution and eco-sustainability. The extreme simplicity with which this product adapts to the various culinary offers in the Ho.Re.ca. sector.

The great opportunity.

An impressive presentation stimulates the palate and the eyes. And this is what the Bread Basket guarantees, giving dishes a touch of originality without obscuring their goodness and quality. Restaurateurs, in recognising the importance of this aspect, can find in this product the opportunity to propose an offer attentive to the satisfaction of their customers and to receive in return a series of benefits (positive reviews, word of mouth, mentions on social networks, loyalty).

But besides the aesthetic factor of the plates, what makes this line of fully edible 'plates' special is their ecological value. Being entirely compostable and biodegradable, the product helps to protect the environment. The baskets do not need to be washed (saving soap and electricity) and in addition, food waste can be avoided by rationalising the purchase of bread. Another aspect not to be underestimated is the saving of plastic products, especially in particular situations where disposable items are needed for service (aperitifs, catering, buffets, finger foods).

The entire processing and production phase is strictly controlled, allowing the company Unica - Il Cestino di Pane to obtain important recognitions (IFS Food certification and Vegan certification) and to become a reference point for the Ho.Re.Ca. and GDO sector and an international leader in the production of edible, compostable and biodegradable products.

The versatility of the baskets allows it to be used with any type of dish, whether hot or cold. The wheat flour and the gluten it contains act as a natural glue, making it possible to make strong and resistant containers even at high temperatures (the entire dish can be heated in a microwave or professional ventilated oven for 60/80 seconds).

Bread Basket  
in 4 formats

# “Large” Bread Basket

Art. N. 060

The large Bread Basket was our first basket, developed at the same time that we started our company in 2013.

It's the best selling item in our range occupying 70% of production from March to September.

Its shape was developed specifically for salads and designed to add a touch of originality and craftsmanship which is always appreciated both by professionals and consumers alike.

The Large Bread Basket has a diameter of 21cm and a capacity of approximately 100cl.

It's approximately 7cm in height and weighs 70g.

There are 5 large bread baskets per bag, each bag is thermo-sealed to maintain freshness and facilitate storage. There are 8 bags per box (storage 40 pcs).

# “Medium” Bread Basket

Art. N. R088

The medium sized bread basket happened by chance...during a dinner amongst friends and between a few jokes and a few glasses of wine someone said, “try putting some soup in that bread basket”!

Obviously we would be pushing its function to an extreme if we really did use it for soup, but we can guarantee that the baskets maintain their shape and taste great with risotto and hot or cold pasta dishes in general!

The medium sized bread basket has a diameter of 19cm and a capacity of 0.75cl. It's approximately 5cm in height and weighs 60grs. There are 8 bread baskets per box. The medium sized bread basket comes in thermo sealed bags each bag contains 6 pieces in order to maintain freshness and facilitate storage (storage 48 pcs).

for your imagination

# “Small” Bread Basket

Art. N. P054

The small bread basket is by far the most versatile product within our range and can be used to contain anything from antipasti to risotti right through to desserts.

The small bread baskets have a diameter of 17cm and a capacity of 0.40cl.  
They are approximately 5cm in height and weigh 40gr.

The small bread basket comes in 8 thermo sealed bags per box, each bag contains 12 pieces in order to maintain freshness and facilitate storage. (storage 96 pcs).

from appetizers to desserts

for high level catering

# “Mini” Bread Basket

Art. N. B079

The mini bread basket was developed around the middle of 2015 after participating in Expo Riva Hotel on Lake Garda in Italy, where we received many requests for a smaller sized basket that would be appropriate to use for finger food and for high level catering.

The mini bread basket has a diameter of 12cm and a capacity of approximately 0.12 cl.

It's approximately 5cm in height and weighs 35grs.

The mini bread basket is packaged in 5 thermo sealed bags, each bag contains 24 pieces in order to maintain freshness and facilitate storage (storage 120 pcs).

## *“Extra Mini” Bread Basket*

The Extra Mini Bread Basket was created after countless requests for a smaller format suitable for finger food ideal for catering.

The Extra Mini Bread Basket has a diameter of 9 cm.  
The height is approximately 2 cm and the weight 13 g.

It is packaged in 6 heat-sealed bags of 25 pieces to keep freshness and facilitate storage (carton 150 pieces).

To the classic flavours already in the catalogue, we have added natural flavourings  
turmeric - spinach - charcoal - spicy - white corn - wholemeal.
